

Ramatoulaye (Rama) Barry
Triangle, VA

Dear Hiring Manager,

I am writing to express my interest in an IT internship at your organization, particularly in IT support, systems administration, or networking. I am currently pursuing a Bachelor of Science in Information Technology and am eager to apply my academic knowledge and develop technical skills in a hands-on professional environment.

Through my coursework, I have built a strong foundation in networking concepts, Linux administration, security fundamentals, and system analysis. I have also gained practical experience through hands-on labs involving virtualization, basic scripting, and system configuration, which have strengthened my analytical thinking and troubleshooting abilities.

In my current role as an Onboarding Support Specialist, I assist users with system access, account setup, and resolving technical issues while coordinating with IT and HR teams. This experience has enhanced my communication skills, attention to detail, and ability to document and resolve issues effectively, skills that translate well to an IT internship role.

I am highly motivated to continue developing my technical skills, gain real-world IT experience, and pursue industry certifications such as Network+ or CCNA. I would welcome the opportunity to learn from your team and contribute positively while continuing my professional growth. Thank you for your time and consideration.

Sincerely,
Ramatoulaye (Rama) Barry
